Static Power specializes in technical sales and services for uninterruptible power systems (UPS) nationwide. Static Power's staff of experienced engineers and technicians provide consulting, testing, design, disaster recovery, sales and maintenance services for power conversion systems users and manufacturers.

Whether you're considering the purchase of an uninterruptible power source and need assistance in specifying a system, or maintenance and repair for your present UPS, our staff can supply comprehensive, on-site services.

Our experience, knowledge and reputation for quality have made us number one with manufacturers and suppliers who want the best available service for their customers. Some of the best-known names in the power protection industry retain Static Power exclusively to do their support services and warranty work. Static Power also provides responsive, professional service and technical expertise directly to end users who prefer to use independent maintenance and consulting services.

Static Power's quality, timely and professional services are designed for your power protection. We understand your serious power problems more than anyone, which enables us to select the proper UPS, Telecom Power Plant, or batteries for your application needs. Static Power offers a variety of service agreements with options that allow us to tailor each agreement to your individual needs. Static Power deals with some of the best names in the power protection industry including: APC, Chloride, IPM, Powerware, Liebert, MGE, Oneac and others. Static Power can also take care of your battery needs, being a distributor for: Enersys (Yuasa), Power Battery, B&B, GNB, C&D Battery and others. Static Power can also service and sell DC Power Plants, such as ADS, C&D, Exide, LaMarche, Marconi (Reltec/Lorain), Ratelco, Oneac, Peco II and PCP.

From Sales to Service, **Static Power** is your single point solution for your power requirements. Not only do we provide you with the best service possible, with the industry's most qualified personnel, we have an exceptional sales team who is here to serve you!

From turnkey installations, disaster recovery, to selling small, medium, or larger systems; Static Power can provide you with the correct solution to ensure your power quality. Not only do we have an exceptional sales team; each member of that team has years of field service experience. They understand your concerns, and have the solution you need.

When purchasing new equipment or batteries from us you can be assured that your old system and batteries will be disposed of in an environmentally friendly manner. All old/used equipment and batteries are disposed of per EPA regulations.

When it comes to power protection think Static Power for sales and service.

“We’re Always On!”
